Tree Management in Lane Cove

Lane Cove is well known and regarded as a green leafy area. The leafy green neighbourhoods, including street trees, small local parks, park plantings and numerous bushland areas, provide important landscape and environmental features and help create a sense of place and valued identity. The Regulatory Controls For Tree Preservation allows for the professional assessment of trees before they are pruned or removed.

Alternatives **Alternatives other than tree removal will be encouraged at all times.**

All trees specified in the Tree Inspection Application Form will be inspected on their merit. Factors taken into account include the overall health, safety, age and stated problems relative to the tree/s concerned. Council's Tree Preservation Officer inspects the tree/s from the ground with no internal or subterranean investigations carried out at the time of inspection. The Visual Tree Inspection undertaken is in accordance with industry standards. If it is deemed necessary to obtain more comprehensive information on the health or structural integrity of the tree/s prior to finalising the application, the applicant shall provide this additional information.
